Mitsubishi Electric to Establish FA Products Service Center in Malaysia

New facility will strengthen local customer training and product service and support

TOKYO, February 15, 2021 – [Mitsubishi Electric Corporation](https://www.mitsubishielectric.com) (TOKYO: 6503) announced today that it will establish the Malaysia FA Center on the premises of its subsidiary Mitsubishi Electric Sales Malaysia Sdn. Bhd., which is located in Selangor state on the west coast of Peninsular Malaysia. The new facility, which is scheduled to start operating on March 1, will strengthen servicing and support for Mitsubishi Electric factory automation (FA) products in Malaysia and thereby facilitate expansion of the company's local business in FA systems.

Mitsubishi Electric Sales Malaysia Sdn. Bhd.,
home of new Malaysia FA Center

The Malaysian FA market largely comprises an expanding base of local and Japanese enterprises. These firms span numerous industries, including electrical, electronic, automotive, food and beverage, and more, each of which requires various services for the FA products they use. Until now, the servicing of Mitsubishi Electric's FA products in Malaysia has been handled by the company's ASEAN FA Center in Singapore. To improve local access to timely service and support, Mitsubishi Electric has now decided to establish the Malaysia FA Center, which will also provide training, technical consultation and proposals for system enhancements and upgrades to meet the rising expectations of local customers.
